

Mountain Creek Farm was established in 2009 by Richard and Mitzie Almond with a passion to produce fresh, quality blueberries. They began with an initial planting of 600 blueberry bushes of different varieties. In 2014 they expanded their farm operation by adding an additional 600 bushes. Mountain Creek Farm began selling their blueberries in 2012 at the Stanly County Farmers' Market. In 2013 they expanded their marketing of the berries through social media, enabling them to sell directly from the farm. Mountain Creek Farm has fresh, local berries available mid June through August. To contact them visit their Facebook page at "Mountain Creek Farm of Stanly County" or call 704.982.5617.
